Objective

Aspiring AI&ML enthusiast seeking opportunities to apply and further develop skills in data analysis, deep learning, and AI algorithms

Education

- B.E. (Bachelor of Engineering) CSE (AI&ML) | Lokmanya Tilak College of Engineering, Navi Mumbai, Mumbai University | 9.3 CGPA | 2025
- XII (H.S.C.) Science | B.N Bandodkar College of Science, Thane | 80% | 2020
- X (S.S.C.) | Gyanodaya Vidya Mandir, Thane | 88% | 2018

Skills summary

- Languages: Java, Python, SQL, HTML, CSS
- Technologies: Django, Git, Rabbit MQ, Docker, Power BI
- Soft skills: Willingness to learn, Teamwork, Patience, Time management, Critical thinking

Internships/ Work Experience

- Tata Cliq Fashion, Mumbai (08/25 - Present) | On-Site | Data Analyst | Working on Tableau, PowerBI automation. Actively providing query and insight to the category team.
- Kuhoo Edu-fintech, Mumbai (12/24 – 08/25) | Full time internship converting to SDE-1 role w.e.f August 2025 | Working on External Integration with College Project; Task LLD preparation; API development and writing test cases
- Kuhoo Edu-fintech, Mumbai (06/24 - 08/24) | Offline internship | Implemented IDOR in LOS; Developed API and test cases
- Entrib Analytics Technology, Pune (12/2023 – 01/2024) | Hybrid internship | Actively contributed to the functionality and data analysis of the dashboard
- IBM (06/2023 - 07/2023) | Online | Completed Front-End web development course and one project based on HTML, CSS, JS
- Indiba Business Solution (IBSL), Pune (05/2023 - 06/2023) | Remote | Got first-hand experience of using Frappe Framework and ERPNext

Projects

- WiseCare – Revolutionizing medical diagnostics (01/2024 – 04/2024) | Designed a comprehensive unified platform for brain tumor and retino-diabetic disease prediction | Skills used: ML, flask, python
- Innovative Healthcare Management – Blockchain and Deep Learning (07/24 – 05/25) | Designed a comprehensive AI based smart health care record system | skills used: ML, Blockchain, PinataCloud
- Vidyadaan Sahayyak Mandal (VSM) website (2022 – ongoing) | Updating VSM website with the latest and greatest content | Platform used: Wordpress
- PashuFarm – Your livestock marketplace (08/2023 - 10/2023) | Designed website for selling of cows and buffalos potentially useful for farmers | Skills used: Django, SQL, Python, HTTP
- WhatsApp Chat Analyser (01/2023 - 03/2023) | Individual and group WhatsApp chat duration analyser offering a dashboard output (e.g., graphs, word cloud etc.) for key parameters | Skills used: Python, ML, Streamlit
- Movie Recommendation System (12/2022 - 01/2023) | Recommends movies based on user watched and liked movies | Skills used: Python, ML, NLP, Streamlit,
- Student Study Portal (07/2022 - 09/2022) Web portal designed for AI&ML student who are struggling in finding study material | Skills used: Django, SQL, Python, HTTP

Certifications

- Build Real World AI Applications with Gemini and Imagen (Google Cloud)
- Machine Learning for All (Coursera)
- Cloud Foundations and Machine Learning Foundations (AWS)
- Python for Data Science (Infosys Springboard)
- Python (Basic) assessment test (HackerRank)

- Java (Basic) assessment test (HackerRank)

Achievements

- Winner of VSM hackathon (2024) – Developed a portal for comparing mobiles based on specifications for informed purchase decision for the buyers
- Secured first rank in 2nd year Engineering (2023)
- Secured 3rd rank in 1st year Engineering in institute (2022)
